SUBJECT: RWANDA: IMPLEMENTING SECURITY COUNCIL RESOLUTION
1874

REF: A. STATE 65483
[1](#)B. STATE 66250

(SBU) Pol/Econ Counselor delivered reftel A demarche to Joseph Kabakeza, Director General for Bilateral and Multilateral Cooperation at the Ministry of Foreign Affairs (mission subsequently delivered reftel B non-paper, also). Kabakeza acknowledged the importance of properly implementing 1874's measures to prevent North Korean transfer of nuclear, ballistic and other materials. While noting that Rwanda had no seaports, and only a limited number of flights through its international airport in Kigali, Kabakeza said that comprehensive port security was essential in preventing a variety of illicit activity. From North Korean contraband shipments, to narco-trafficking, to terrorist inroads, "it's important" to be vigilant, he said.
